Introduction

Welcome to a world of mystifying occult objects! The amulets, talismans and various other items presented in this catalog have their origin in Indonesia, a country considered by some as a possible location for the long, lost continent or archipelago of Atlantis--the "fabled" nation famous for its magickal mysteries. Enjoy browsing this catalog, you will find many things that will fill you with wonder and possibly skepticism!

About the Talismans and Amulets

There are over a hundred talismans and amulets in this catalog, and it will continually grow as we add more items into it periodically. Some of the items have similar functions, although they are in different form and produced by different occultists and have their roots in different branches of the Shamanic/occult Islamic tradition. Most of the talismans require time-consuming rituals to fashion and consecrate. Special days are chosen according to the Javanese/Islamic calendar for their consecration. Care have been taken to ensure that these magickal items are of high quality by their producers. Because some of these items are made-to-order, please allow several weeks for them to reach you. It is worth the wait.

The magickal items that you will see in this catalog are very popular in their place of origin and are often out of stock as a result. Some are rare and difficult to acquire. Most are likewise only available from a single source. It is not unusual for individuals who fashion these amulets and talismans to take the secrets of their construction, consecration, the prayers and mantras to their grave. Although some talismans and amulets are magnetized several at a time, or in groups, the majority are consecrated individually. We have to stress here that we do not make the occult objects ourselves, we simply distribute them to those who might need them.

Quite a few of the items are unconsecrated or semi-charged. They would have to be sanctified and magnetized by the User, or attuned with their energies by conducting certain simple rituals. Not all of the items come with instructions. Those items without instructions may be consecrated anyway the User deem fit.

Disclaimer

Although the powers in these magickal items are real and palpable to those having psychic sensitivity, for legal reasons we sell these occult objects simply as curio items. We state the purposes of their creation, consecration, and function but do not guarantee their effectiveness as this is dependent upon various factors. Results may vary from User to User--according to a person's faith--so it is.

We would also like to remind the Users of these occult objects that they are simply media whereby divine blessing may pour into our lives. By themselves they are powerless, it is solely the power of the Omnipresent One that vivifies them with occult force. Realize that the Divine One is the only Power in existence and that all thanks and appreciation should be given to this Great Emanator, the First (or rather Multi/Endless/Countless) Cause of the Omniverse, the source of our being and not to the objects themselves.

Empowerments

Spiritual-Name Empowerment

Names can condition one's psyche and often influence the quality of life. Names have vibratory power and energies that can have a positive or a negative effect upon one's inner being, one's psychic-centers/chakras, endocrine glandular system, etc—even affecting facial features and form. How many times do we find ourselves saying that one looks like a "Barbara," an "Alice," or a "Paul"—or something to that effect, and often to discover the uncanny reality of it? Names can cause a subconscious aspiration and desire to conform to the meaning of the name and express this blueprint in the world of form, no matter whether the name be beneficial or otherwise. A badly chosen name with a negative/neutral meaning can result in hurdles and obstacles towards success, peace, and happiness in one's life; an appropriate name can help one to attain these conditions or states much more easily without any hindrances. A suitable name is vital not only for worldly life, but for spiritual advancement as well where a carefully chosen name inspired by one's Higher Self/Guardian Angel can result in an accelerated progress in soul-culture, spiritual-unfoldment and divine-awareness. Names have meanings and energies with "frequencies" determined by their sound and numerical-values. The characteristics of names can often be determined by the occult art of Numerology, though not always in a perfect sense. In this empowerment we will acquire an appropriate name for you based on ancient tongues after magickal/psychic attunement with your personal Higher Self/Guardian Angel for direction and inspiration—also for validity and suitability. These ancient languages are often considered "dead" and no longer in common usage. They are closer to the angelic-languages that are traditionally believed to be used in the higher spheres, realms and extraterrestrial worlds. We will empower you with the name through a mystical ceremony—you will be attuned not only to the meaning and the energies of the chosen name but with its virtues and powers as well. Your personal name, its meaning and the manner of usage will be revealed after the empowerment-ceremony. You need not change your primary/legal name to benefit from this empowerment. This is a long-distance (remote) empowerment.

Life-Regeneration

This is a two-part ritual that we will conduct on your behalf. The first-part removes the metaphysical toxins and negative leeches in your energy-field. These psychic dross corrupts your emotions and mind and puts you into a negative, depressive, morbid state. They attract negative and unfortunate circumstances into your life. With the existence of the darkness in your aura people would feel uncomfortable in your presence--thus opportunities for financial growth, love and success would seldom come your way. Their removal lifts a great psychic burden and opens up channels for improvements in all sectors of your life. The first part of this ritual is commonly called "Ruwatan" in Javanese metaphysics.

The second part of the ritual fills the void left by the removal of the psychic toxins with Divine Light. This light will keep you radiant as it uplifts your thoughts and feelings to a more positive and divine orientation. Blessings will be invoked upon your behalf so that the greater gifts of Nature may be acquired.

This ritual-service will help you to attract more fortunate circumstances and opportunities into your life and assist you to maintain psychological and physical health. This is a long-distance (remote) empowerment.

Soul-Healing

This ritual-service is a complement and a more advanced level of the Life-Regeneration empowerment. The latter has to be undergone before the 3-day Soul-Healing ritual may be conducted on your behalf. This soul-healing removes many karmic stains as permitted by the Higher Intelligences overseeing human evolution.

Components of your occult structure other than the aura would be also be cleansed of psychic toxins.

Certain precepts of life may have been learnt by your soul, however, unnecessary karmic stains may still exist—these may be removed so that you need not experience their negative effects manifesting in your life. As a result of this soul-healing, aside from the many mundane benefits, you would also have a greater capacity for absorbing Light-energies, developing your psychic senses and attuning to the creative forces of the Cosmos. This is a long-distance (remote) healing.

Metaphysical Implants

Our metaphysical implants fill your being with a certain divine force that you might need to spiritually progress. It helps you to tune-in to the higher frequencies of life and develop your creative soul-potentials. For a balance in your soul, all three qualities of Love, Power, and Intelligence should be present; therefore it is suggested that you choose the implant that you are lacking—or you may request for all three. Other types of metaphysical implants will be added to this section from time to time. The implants are most effective after the Life-Regeneration and the Soul-Healing have been undergone. They are to be regarded as stimulants and catalysts that develops the inherent qualities and attributes of the Soul. This is a long-distance (remote) empowerment.

Implants :

Love-Consciousness Implant

This implant builds up an unconditional and an enlightened love-consciousness. Devotional and selfless qualities among others would develop with the pulsating presence of the implant. Without true divine love in your hearts the higher angelic beings would have trouble approaching you and bless you with the gifts of the Spirit. Without love it would be difficult to embrace all beings of the universe and to establish peace in the House of God. Without true love it is impossible to evolve.

Intelligence/Wisdom-Consciousness Implant

Without spiritual intelligence or wisdom, love is often improperly expressed, akin to spoiling one's children. It is possible for one to love in the wrong way, to give of oneself indiscriminately to others without thinking how it could possibly damage the educational, learning experience that their souls are striving to master. The evolution of others may be delayed by loving them wrongly and unthinkingly--and yet, one must love. Love should not only be unconditional--it should be enlightened--and this requires intelligence and wisdom. It takes a developed intelligence to delve into the mysteries of God and Nature and to make contact with the Powers directing Her. Without the influx of the intelligence of the Spirit one remains intellectually blind. The intelligence/wisdom-consciousness implant assists the recipient to embrace and unfold a greater degree of intelligence; it infuses into the lower mind, the divine force of the Higher Ego. The more developed one's intelligence, the greater the opportunity, capacity, and ability for one to accelerate one's progress spiritually and mundanely.

Power-Consciousness Implant

Like the other divine aspects, the Power-consciousness of the soul needs to be nurtured and stimulated to grow. An ungainly growth of this aspect develops an ego-mania ambitious for the control and manipulation of others and the desire to be recognized by people as "somebody special"--this damages the psyche and gives birth to a host of problems. The negative ego, if fed by power and unbalanced by the other two aspects would cause tyrannical tendencies to develop--and yet power must be unfolded, for the soul requires its force in order to serve. It is for this reason that this aspect should be nurtured, but gradually after the other two aspects of Love and Intelligence/Wisdom have revealed their beauty and radiance. This metaphysical implant empowers the will and awakens in the consciousness the ability to act, perform and serve on a far greater scale and degree than heretofore.

Divine-Pearl Empowerment

This is a highly acclaimed empowerment as related in the Kebra Nagast, an ancient Ethiopian text. This empowerment is the basic form of a more advanced transmission or initiation (see Marifatullah or Divine Gnosis-Initiation Transmission below). The purpose of the Divine-Pearl Empowerment is for the activation of the Inner-Christ;

it helps to accelerate one's spiritual/psychic development and evolution.

This transmission is called "Divine-Pearl Empowerment" because a divine force in the actual appearance of a pearl is transmitted by psychic projection to the recipient. The Divine-Pearl (the divine spark) exists in everyone (dormant in most), but this empowerment transmits the force of the divine pearl of the transmitter to the recipient inducing the innate divine spark in the recipient to awaken and augment its influence over the lower self; the power of the divine-pearl transmission helps to remove the thick psychic veils that hinders divine awareness. This empowerment is only offered long-distance (remote-empowerment).

In the Kebra Nagast it is related in a veiled manner how the Divine-Pearl empowerment was transmitted from Master to Chela or Student. Below are some extracts (square bracket are ours) regarding this pearl as well as its benefits :

"The spiritual Pearl which is contained in the Tabernacle [higher spiritual consciousness] is like a brilliant gem of great price, and he who hath acquired it holdeth it tightly in his hand [consciousness], grasping it and hiding it in his hand, and whilst the gem is in his hand its owner goeth into the Tabernacle, and he is an inmate therein. And he who possesseth the Pearl is interpreted as the Word of God, CHRIST." Kebra Nebrash Ch.98

"And in His mercy God the Father created the Pearl in the body of ADAM [the Christed Man]." Kebra Nebrash Ch.96

"Your salvation was created in the belly [spiritual consciousness] of ADAM in the form of a Pearl before EVE [the physical being]. And when He created EVE out of the rib He brought her to ADAM, and said unto them, 'Multiply you from the belly of ADAM.' The Pearl did not go out [transmitted through initiation] into CAIN or ABEL, but into the third that went forth from the belly of ADAM, and it entered into the belly of SETH. And then passing from him that Pearl went into those who were the firstborn [the chosen, the spiritually awakened], and came to ABRAHAM. And it did not go from ABRAHAM into his firstborn ISHMAEL, but it tarried and came into ISAAC the pure. And it did not go into his firstborn, the arrogant ESAU, but it went into JACOB the lowly one. And it did not enter from him into his firstborn, the erring REUBEN, but into JUDAH, the innocent one. And it did not go forth from JUDAH until four sinners had been born, but it came to FÂRÊS (PEREZ), the patient one. And from him this Pearl went to the firstborn until it came into the belly of JESSE, the father of thy father. And then it waited until six men of wrath had been born, and after that it came to the seventh, DAVID, thy innocent and humble father; for God hateth the arrogant and proud, and loveth the innocent and humble . . ." Kebra Nebrash Ch.68

None of you [the initiated, the receiver of the transmission] who shall have carried the Pearl shall be destroyed, and whether it be your men or your women, those who shall have carried the Pearl shall not be destroyed. For the Pearl shall be carried by the men who shall be righteous, and the women who have carried the Pearl shall not be destroyed, for they shall become pure through that Pearl, for it is holy and pure, and by it they shall be made holy and pure; and for its sake and for the sake of ZION He hath created the whole world . . ." Kebra Nebrash Ch.68

"I am GABRIEL the Angel, the protector of those [the initiator and transmitter] who shall carry the Pearl from the body of ADAM even to the belly of ANNA [the candidate for the initiation or transmission], so that I may keep from servitude and pollution you wherein the Pearl shall dwell. And MICHAEL hath been commanded to direct and keep ZION [the initiated, the receiver of the transmission] wheresoever she goeth, and URIEL shall direct and keep the wood of the thicket which shall be the Cross [the initiation work] of the Saviour [Initiator] . . . And I am with the pure Pearl for him that shall reign for ever . . ." Kebra Nebrash Ch.68

"He that hath an ear, let him hear what the Spirit saith unto the churches; To him that overcometh will I give to eat of the hidden manna, and will give him a white stone, and in the stone a new name written, which no man knoweth saving he that receiveth it." New Testament, Rev 2:17

Marifatullah or Divine Gnosis-Initiation Transmission

This is the true and complete Divine-Pearl transmission called the "Marifatullah or Divine-Gnosis Initiation." It not only transmits the Divine-Pearl as in the Divine-Pearl Empowerment, it also presents the mystic keys for Christ-activation, spiritual growth, development, and evolution. This initiation offers the traditional keys for the Isra' Mi'raj as undergone and secretly taught by the Prophet Muhammad (PBUH). It allows a person to see God "face-to-face." The 30-Syllable prayer, the 20-Syllable prayer and the All-Powerful prayer may also be requested in stages after a period of practice-these prayers have many benefits that the Initiate will come to know in time.

After long consideration, cosmic-attunement, and consultation with Spiritual Intelligences, this Initiation is now currently made available as a Self-empowerment/Initiation with metaphysical keys and materials for "shaktipat" or blessing given. The Initiation can be done alone in your own room and at your own convenience with the Initiator's spiritual-presence and essence overshadowing it. Though representing an authentic Marifatullah spiritual-lineage active in Java (lineage-tree will be given), we offer this Initiation in an eclectic and esoteric manner, free from religious dogmas and fundamentalism. The candidate is trusted to be a seeker of spiritual knowledge, understanding, wisdom and experience-the basis of true faith. Some prior spiritual refinement and development would be an advantage as this would result in a greater success of the Initiation. This Initiation is of especial importance to those who feel that they are ready to go beyond the teachings of simple religious faith and into the world of mysticism and union with the Divine. Those desiring the Initiation for the wrong reasons such as power over others, self-aggrandizement, etc., will not have much success with it. Those involved in Gnostic studies, mysticism, alchemy, metaphysics, esotericism, New Age teachings, yoga, healing, magick, etc. will find much value in this Initiation and the blessings that it confers. An oath of secrecy is requested of the candidate during the initiation process-violating the oath in any way or dishonoring the Gurus of the Lineage would sever the Initiate's spiritual-connection with the egregore or the collective spiritual-structure of the Lineage and result in demerit/negative karma-the Initiate would stagnate in his/her spiritual progress and in this, Cosmic Law functions automatically.

This Initiation is available to anyone (18 years and older) regardless of race, religion, and gender. Traditionally, remuneration/donation is requested of the candidate as a gift to the Initiator; the amount depends on how much the seeker values the meeting of God "face-to-face." One may spend thousands of dollars for a pilgrimage to Holy Sites that are only symbolic of celestial journeys-how much would one spend and sacrifice for the real thing-for the real spiritual methodology and ascension? Nevertheless, as a great deal of time, energy, knowledge, skill, etc were spent preparing for this remote Initiation, we do request that a minimum of US\$300 be offered to us as a gift of appreciation and also for our continued technical support and guidance. Once your gift-offering is received the Initiation-package will be shipped to you. We humbly extend to you this invitation to request this ancient Initiation of the Prophets that will enrich and empower you in myriad ways. It is the Baptism of Fire that the Messiah taught must be attained by the Faithful and Children of God. Peace be unto you.

MAGICKAL WOODS

Oyot Mimang

"Oyot Mimang" or the "Root of Confusion," when hung inside of the home and above the front door, magickally causes nocturnal intruders or robbers to endlessly wander in the home till dawn looking for an exit. The energies of the Oyot Mimang causes their minds to be in a state of confusion and fear and they will not know the way out. The indigenous people of Java and neighbouring islands swear as to the efficacy of the Oyot Mimang to protect the home against theft. The Oyot Mimang is mostly derived from the roots of the Banyan tree and come in many forms and sizes--there are no two exactly alike. In its natural state, the Oyot Mimang grow without any apparent beginning or end to its structure--this in itself is "confusing." The one shown and others in our possession comes from

Kalimantan and are quite small being about 8--12 cm in diameter. We have only four of these forms in stock. Other forms of Oyot Mimang are normally quite large and may be available in the future. Oyot Mimang roots are rare. Price: US\$75--including shipment. Ask for payment terms and details.

Galih Kelor Wood

The scarce Galih Kelor wood is especially extolled by Javanese shamans for its magickal powers of warding-off negative energies in the form of black magick, psychic attacks and entities. We are able to offer pieces of the Galih Kelor Wood that may be used as pendants--we have drilled a hole in the pieces for this purpose. Their sizes vary, but all are suitable for pendants. Price: US\$15--including shipment. Ask for payment terms and details.

Nagasari Wood --OUT OF STOCK

Like the Galih Kelor, the Nagasari wood (tree) is also scarce, and has similar powers as the Galih Kelor Wood. It is less powerful than the latter, though, for warding-off black magick but more powerful for warding-off negative entities. We are able to offer pieces of the Nagasari Wood that may be used as pendants--we have drilled a hold in the pieces for this purpose. Their sizes vary, but all are suitable for pendants. Price: US\$15--including shipment. Ask for payment terms and details.
